

# Cast Iron Welding Electrodes

according to DIN EN ISO 1071, DIN 8573 and AWS A 5.15

## **FINCAST NI**

Nickel electrode for cold welding of grey cast iron

## **FINCAST NIFE**

Nickel-ferrum electrode for cold welding of greycast iron (GGL and GGG types), malleable and spheroidal cast iron

## **FINCAST NIFE K**

Special electrode with copper-plated nickel-ferrum core rod for cold welding of greycast iron (GGL and GGG types), malleable and spheroidal cast iron

## **FICAST FE**

Special purpose welding rod for buffering layers and single layer surfacings on scaled and corroded iron castings
