

NEW GENERATION OF PLASMA CUTTING

Technology Silent Cut

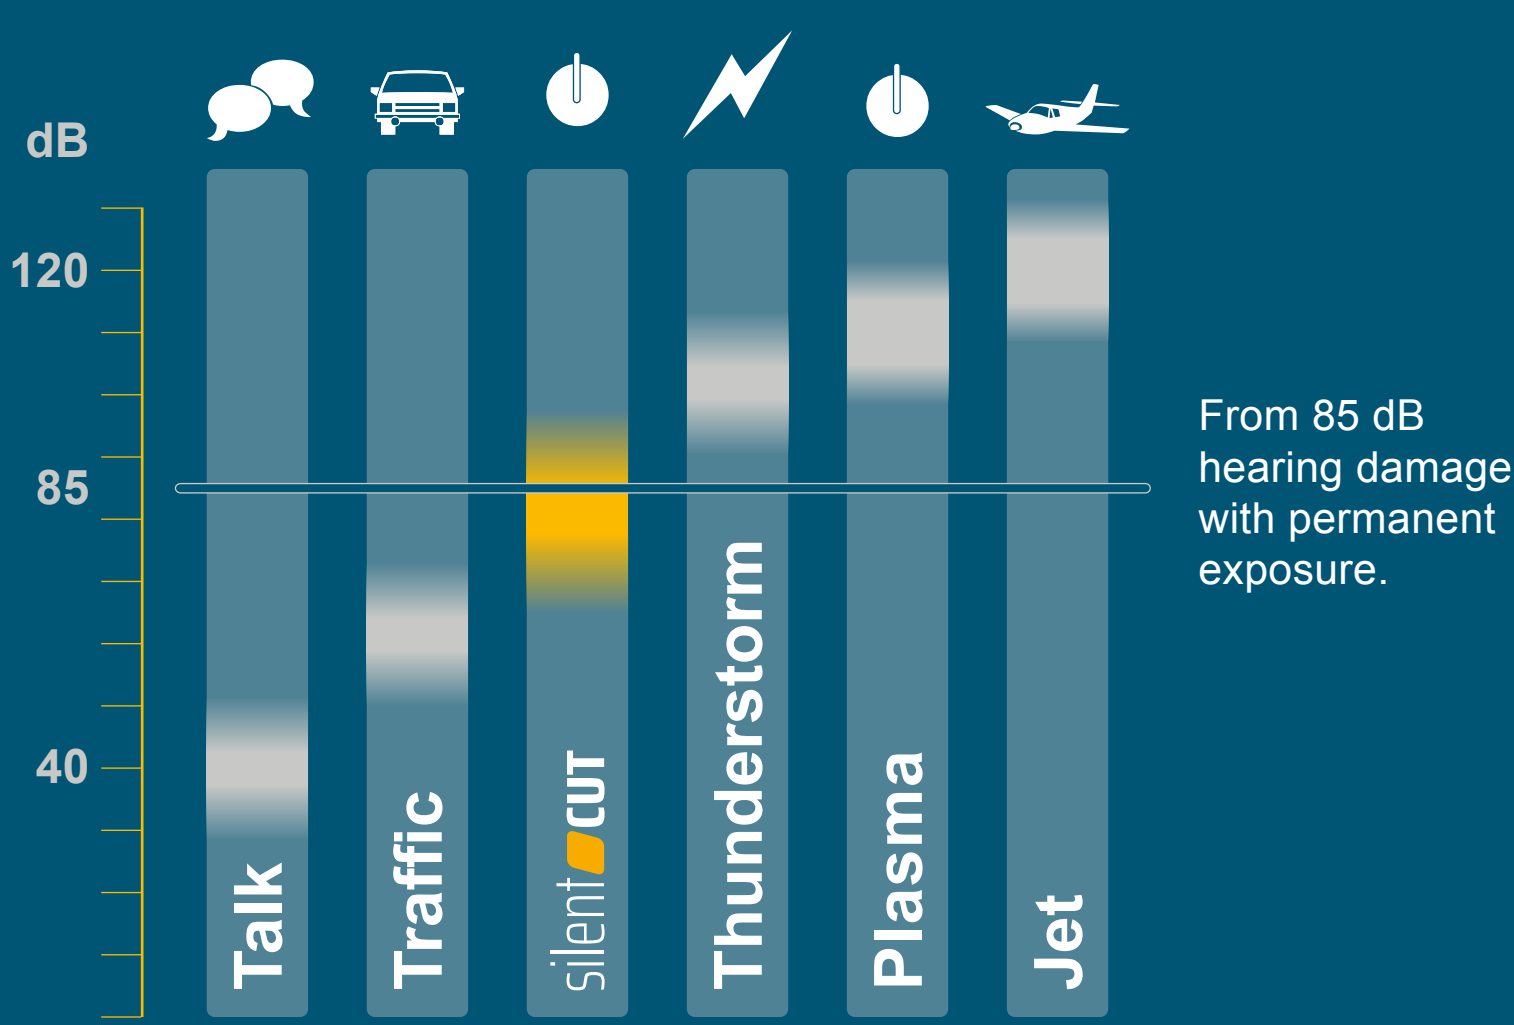

SOUND PRESSURE LEVEL REDUCED

Up to -15 dB (A)

during the cutting process

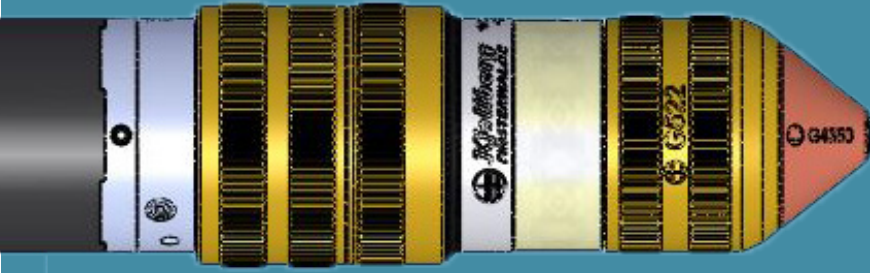

COMPARISON SOUND PRESSURE LEVEL

The reduction of the sound level by 10 decibels is already perceived by human hearing as a halving of the loudness.

THE REASON WHY

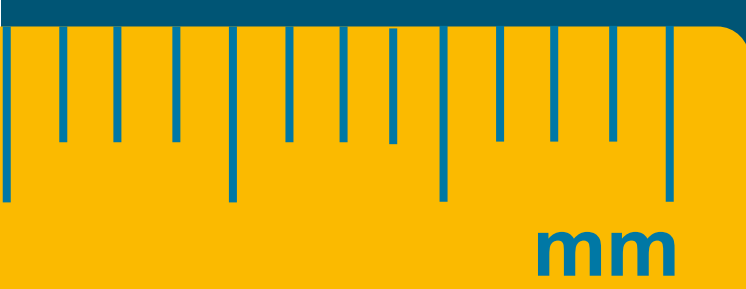

A unique **Combination** of new consumables and new cutting parameters

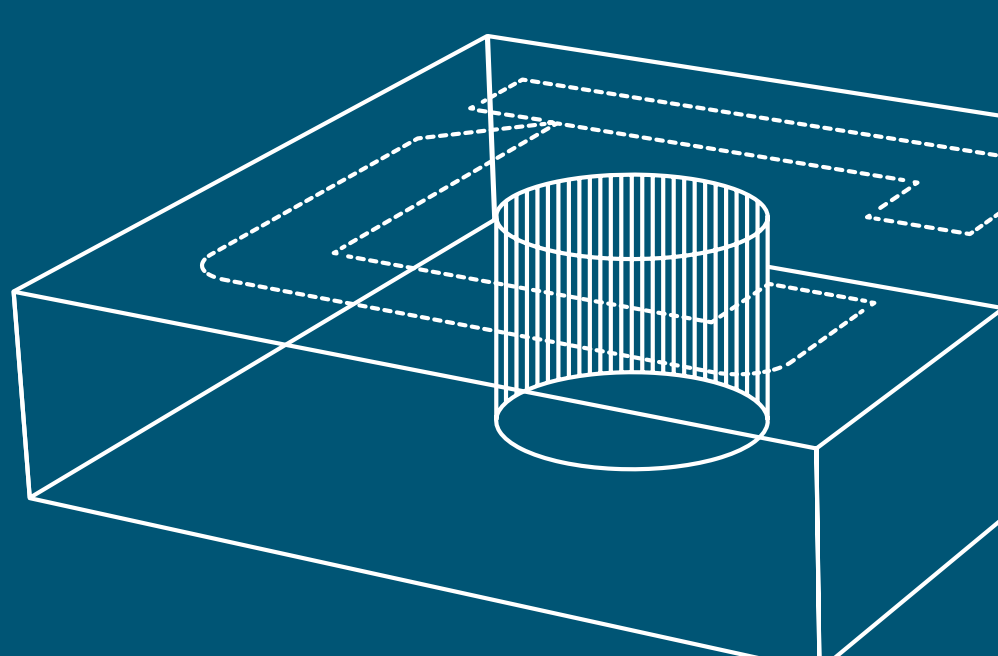

TECHNICAL PARAMETERS

Application

Thickness

lower sound level from 4 to 30 mm (mild steel)

Quality

holes, bars and contours similar to Contour Cut

Performance

Q Smart Focus HiFocus neo

⚡ best quality from 60 to maximum 170 A

OUR KNOW HOW

- Quality Plasma
- Fast Plasma
- AND NOW**
- Silent Plasma

KEEP CALM AND CUT SILENTLY
