Organisational Notes:

• **Making Training Appointments**

Training appointments can only be made after we have received the duly completed application form. We reserve the right to change the program and scheduling for important reasons. Please confirm our proposed date, or in case of several proposals one date within two weeks of receipt so that we can make a reservation for you. Otherwise, we will make the date available to someone else.

• **Travel and Accommodation Expenses**

Kjellberg will not bear any travel and hotel accommodation expenses. We will be happy to organize hotel accommodation for the training participants.

• **Training Times**

Training courses start on Tuesdays at 8am. The end depends on the selected course module.

• **Services during the Training**

All required documents, and a lunch snack will be provided by Kjellberg.

• **Personal Protective Equipment (PPE)**

Each training participant must bring along their personal protective equipment (safety shoes and long work clothes) and is obliged to wear it. Kjellberg is not responsible for injuries resulting from inadequate or missing protective clothing and reserves the right to exclude participants from parts of the training.

• **Goods Brought Along from Third Countries**

Please note that goods brought along from third countries for the purposes „return“ and in particular „repair“ must be imported into the EU through official authorities. If this is ignored and there are no import documents, unfortunately we can neither process these goods nor return them to you.
