

MAINTENANCE

Annual UVV tests

- ✓ Electrical repeat test of the welding technology according to EN 60974-4
- ✓ Electrical repeat test of clamping tables and welding portals according to VDE 0701-0702

Maintenance at recommended intervals

- ✓ Visual inspection of welding cables, welding heads, wire guides for mechanical or thermal damage
- ✓ Replacement of worn or heavily stressed components
- ✓ Checking of screw connections
- ✓ Cleaning of the welding technology

We Inspect and Maintain Your Welding Equipment

Everything's going perfectly? Perfect! We're here to make sure it stays that way.

As a manufacturer of individual and complex welding systems, we want the technology we supply to meet your expectations for a long time and to ensure operational reliability at all times. Since we know it inside and out, we know what to do.

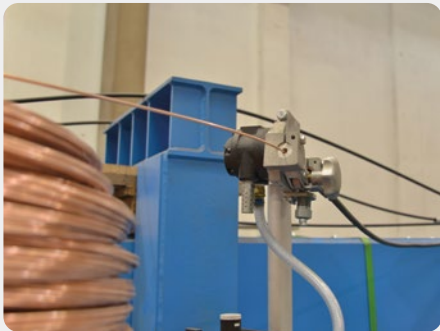

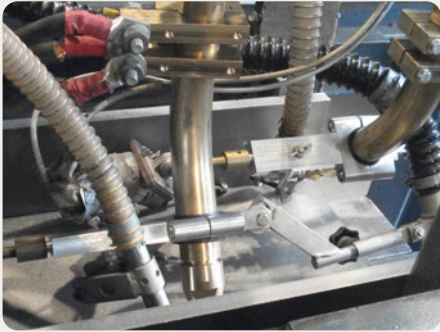

Prevent the failure of your investment, relieve your maintenance and simply conclude a maintenance contract with us. We will contact you at the agreed intervals and arrange an appointment. In this way, your systems will remain available for a long time and you will automatically fulfil your legal obligations.

Take advantage of many years of experience in the maintenance and repair of your own and third-party welding technology.

SERVICE

You need help?

Our employees are there for you to commission or maintain new plants. But our service offers much more:

- ✓ training, including refresher courses or instruction for new staff
- ✓ supply of spare and wearing parts
- ✓ troubleshooting and repair service
- ✓ Validation of welding systems according to EN 50504 for welds requiring proof

The focus is on minimum downtime.

Interested? Please contact us - we will be happy to provide you with a tailor-made offer.

You want to modernise or digitalise?

Has your plant technology become outdated, do you have new tasks to perform, have working conditions or legal requirements changed, do you want to use the possibilities of digital technology?

Retrofit

Together with you, we develop a concept for the modernisation of your old plant. The make is not important. We have many years of experience in the retrofitting of our own and third-party welding systems.

Decide between new investment and revision of the proven technology! Ask for an appointment.
